DAM IS MENACED

The mayor said that Shupe's dam several hundred yards east of Washington avenue might go out at any minute. This would perceipitate a-sudden swell in the river that might send the water higher in the marooned districts and even cover a wider territory.

Trouble was anticipated this spring, said the mayor, and several weeks ago precautionary measures were taken, known weak points in the riverbank were strengthened and low places were ball up with gravel taken from the river bed.

Emergency steps will be taken wherever needed, the mayor declared and all facilities at the disposal of the city will be utilized to prevent damage to property owners.
